SUMMARY

Curious Drupal and PHP Developer who would like to grow his skillset by working on a team with other professional developers.

EXPERIENCE

Senior Web Developer, FierceMarkets

Washington, DC — January 2011 - Present

In addition to the duties of the Web Developer role, responsible for informally playing a leadership role to the other members of the development team.

Accomplishments

- Played a huge part in a Drupal 5 to 6 migration and site redesign for the 40+ publication sites.
- Onboarded and trained new developers.
- Improved the internal development practices, including migrating to Git, installing Jenkins CI with a multi-step build pipeline, and encouraging Agile and Scrum practices.

Web Developer, FierceMarkets

Washington, DC — March 2007 - January 2011

Responsible for IT support and the planning and building of systems to support the needs of the company.

Accomplishments

- Built and maintained form building and reporting tools for the Marketing Solutions and Audience Development teams.
- Participated in a Drupal migration of 20+ sites.
- Maintained the company media kit site.
- Worked on several large projects to support multiple departments in the company.
- Maintained internal infrastructure (phones, printers, hardware provisioning, network)
- Provided tech support to employees.

EDUCATION

Old Dominion University

Bachelor of Science in Business Administration - Information Systems — Graduated in 2006

Course work included: Advanced C++, Networking, Systems Analysis, Systems Design, Visual Basic .NET, Server Configuration, IT Project Management, Database Administration, and Computer Architecture.

SKILLS

- Drupal module and theme development - Drupal 4.6 to 7.
- The LAMP stack - Apache 2, MySQL 5.0 to 5.5, PHP 4 to 5.4.
- HTML5 / CSS3 / JavaScript / jQuery
